THREE PERSONS INJURED

BUCKEY, O., April 29—One per-
son was killed and three injured
late this afternoon in a three-
car automobile accident on the Lin-
coln highway five miles east of here.Raymond Goslee, 41, of New
Castle, Pa., died in City hospital
last night of 8:30 from a fractured
skull and internal injuries. He
never regained consciousness and
lived five hours after the accident.F. J. Blackford, 40, of south of here,
suffered a fractured knee cap and
Mrs. Edna McMillan, 21, sister and
Mrs. Monte L. Alley, both of
New Castle, were badly cut and
bruised. Both injuries are not
considered serious.A broken front axle on the auto-
mobile carrying the New Castle
party caused two other cars to pile
up in the road. The car was driven
by Attorney Monte L. Alley, the only
occupant to escape uninjured.The car was thrown across the
road into the path of another
driven by Blackford, who was
headed west. W. H. McLean of
Mansfield, a passenger, was un-
hurt.Attempting to avoid the two
cars blocking the highway, Frank
Ecker of Weston, W. Va., swerved
his sedan into a ditch. It over-
turned three times, breaking the
windows and damaging the top.
Ecker was unhurt and he was able
to drive on to Elkin. The two
other cars were badly damaged and
were taken to local garages.The injured persons were taken
to the local hospital in a Wile car
for burial.Goslee will be taken to New Car-
tle for burial.LOS ANGELES, Calif., April 29—
A woman's rage at the sound of a
neighbor's lawn mower has
caused two deaths.Miss Ellin May Thompson, 29,
former of Sabina, O., shot and killed
Paul Donithan policeman when he came to her home to in-
vestigate her reported attempt to
shoot her lawn mowing neighbor
Mrs. Pauline Phil. In a subsequent
gun battle with police, Miss Thompson
and a mental case was killed.After shooting the officer, Miss
Thompson barricaded herself in
her home. She defied more than
50 officers taking occasional shots
at them from the windows.The police finally threw tear
gases into the city at 8:30 a.m.
today.The city was thrown into con-
fusion, excitement, recalling that
two years ago a series of quakes
shook the city, toppling buildings
and causing extensive damage.However, the first strong shock
was not felt immediately as
occurred in the previous days
in which began with com-
paratively slight vibrations until
they reached a destructive force.Miss Thompson had been under
the care of a nurse whom she had
forced to leave the house shortly
before the police arrived. She had
been suffering from a nervous
breakdown. The pistol she used
was the property of F. A. Pilcher,
Lincoln Heights, Calif., who had
been suspended by the police de-
partment earlier in the day on
charges of intoxication.Pilcher had left the pistol at the
house when he called on the woman
with whom he was friendly.Joseph Taylor, chief of detec-
tives, said affectionate letters from
Pilcher to Miss Thompson were
found in her home.

No damage was reported here.

PRIVATE RITES MONDAY

BUCYRUS, April 29—Private funeral services for Mrs. William M. Light, who died here Thursday, will be held at the home Monday afternoon, followed by services at First Church of Christ. Burial will be made in Oakwood cemetery.

To Plan Potluck.

Plan for a potluck supper in the near future and activities of the summer will be made at the meeting of Our Lady of Victory Circle No. 322, Daughters of Isabella, to be held Monday night in the assembly hall at St. Mary's parochial school.

The following Sunday school officers were elected: H. A. Hough, superintendent; L. E. DeLander, assistant; Miss Esther Behout, secretary; Miss Norma Finch, assistant; Earl Peters, treasurer; Mrs. Jessie Peters, assistant; Miss Josephine Grohob, pianist; Mrs. Alice Pierce, assistant.

Every one who has suffered from constipation should read Mr. P. M. Fisher's book.

"For a longer time I suffered from constipation and used, for relief, all kinds of laxatives. After a few days' treatment, I would only find my condition the same as before and at times worse.

"Some time ago I started to use Kellogg's ALL-BRAN regularly, one day as directed. Since doing this, I have found that I do not need any other medicine to procure the desired result, and it keeps me in a very healthy condition."—Mr. P. M. Fisher, 322 Evergreen Place, New York, N. J.

Constipation is caused by lack of two things in the diet: "Bulky" to exercise the intestines; Vitamin B to tone the intestinal tract. ALL-BRAN supplies both—and also iron for the blood.

The "bulky" in ALL-BRAN is much like that in lettuce. Inside the body, it forms a soft mass, which gently clears out the wastes.

How much safer this is than risking pills and drugs—so often harmful. Just eat two tablespoonsfuls daily—in serious cases, with every meal. If your intestinal trouble is not relieved in this way, see your doctor.

Equally tasty as a cereal, or used in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Part of the condemnation suit against the C. D. & M. Electric Co. in Marion was held yesterday afternoon and the electric company was to begin presentation of its arguments and testimony today. A hearing was held before Judge Scoville this morning over the admissibility of certain testimony before resuming the trial before a special jury to be drawn for the case.

The electric company brought the action against Probst to obtain a small section of land adjoining its transformers in the rear of 16 east Center street.

La Marche Estate

W. H. of the late Charles I. La Marche of Vernon Heights boulevard was probated yesterday by Judge Oscar Galt. The will provides for a \$10,000 trust fund for the education of his daughter Jeanette Marion who also was given a piano in a separate bequest. The automobile, household goods, jewelry, silver and other personal property are left to the widow Mrs. Clara I. La Marche, who is named as executrix and trustee of the fund for his daughter. The residue is given to the widow and children including Carl La Marche, Daniel I. La Marche, Robert J. La Marche and Jeanette Marion La Marche.

Estate Appraised

Estate of the late George Benzler of Pleasant township is appraised at \$3,650 in an inventory filed yesterday in probate court by the appraisers Homer T. Myers, Raymond Myers and Joseph A. Mendenhall. The property includes stocks and securities appraised at \$26,559 and \$9,000 in realty.

Redleg Outfield Providing Punch

HOWLEY BOYS POUND OUT 7-6 WIN OVER PITTSBURGH PIRATES

Brooklyn Breaks Its Losing Streak with Victory Over Phillies; Cleveland Cops.

By The Associated Press
Seven of the National League clubs shifted their outfields before the start of the current race, and there is reason to believe that Cincinnati Reds picked up the winning hand.

In Bob Herman, Chick Hafey and Taylor Douthit, the Reds appear to have one of the greatest combinations in the circuit.

None of the six other contenders thus far has been able to place trio in the field to compare in effectiveness with Jim Howley's big three. Herman and Hafey are knocking the cover off the ball, and Douthit is upholding his reputation as one of the greatest fly hawks in the game.

They were the big guns yesterday as the Reds opened at Pittsburgh with a 7 to 6 victory. Herman knocked in three runs with home run and a single, Hafey snatched a double and two singles, and Douthit came up with a pair of singles.

The Brooklyn Dodgers broke a five-game losing streak at the Phillips' expense, 11 to 6. Mac Carey's pupils finally got their hitting eyes, and pounded four pitchers for 14 safeties, including home runs by Frederick and Roemer.

The celebrated "Diz" Dean made his maiden start for the St. Louis Cardinals and went out after five innings under a hail of hits as the league leading Chicago Cubs won another, 12 to 7.

Cold weather held up the Giants and Boston.

In the American League, Washington inflicted more casualties on Connie Mack's pitching staff in scoring a 10 to 4 triumph.

The Yankee fell on Danny MacFayden, ace of the Boston staff, for 10 hits to take the opener with the Red Sox, 5 to 1.

Cleveland ran its winning streak to five straight with an 11 to 2 decision over the luckless Chicago White Sox. Earl Averill featured the Indians' assault with a home run.

Detroit's prize rookie, Whiffy Wyatt, met his first reverse when the St. Louis Browns jumped him for seven hits and five runs in the first four innings and then held on behind George Blacholder to win 4 to 2.

3,000 ATHLETES TAKE PART IN PENN MEET

Thirty-Eight Events Carded on Program for Opening Day.

By The Associated Press
PHILADELPHIA, Pa., April 29.—The University of Pennsylvania relay carnival, put under way today with 3,000 college and schoolboy track and field athletes thonging Franklin Field in a two-day quest for glory and medals and cups in 94 events.

Thirty-eight events are on today's program which opened with the 100 meters sprint in the decathlon championship.

Eleven college events, including the decathlon, were on this first day's program, but for the most part the spotlight rested upon the efforts of high, junior high and prep school boys competing for important scholastic relay titles.

In four events in the decathlon—100 meters running broad, jump, 16-pound shotput and 400 meters—a half dozen athletes seek the crown of Barney Beiringer, Pennsylvania star who outclassed the field for the past three years.

Other leading events of the day included the 100 meters hurdles, quarter mile college relay, medley relay and spring medley relay.

In Practice Game, Central Christian No. 1 and Calvary Evangelist will clash today in a practice tilt at Garfield Park. The game is called for 8 p.m.

YOUNGSTER SETS UP ASSOCIATION RECORD

Minneapolis Outfielder Has Reached First Base 14 Times in Row.

By The Associated Press

CHICAGO, April 29.—In his second year of organized baseball, Joe Mowry, a former University of Iowa athlete, has established a record any player might envy.

Mowry, whose hitting has made him a regular in the Minneapolis outfield, yesterday reached first base a fourteenth consecutive time, to better the American Association and major league records.

In 1911, Tris Speaker of Cleveland reached first 11 times in a row, and in 1923 Johnny Cooney of Milwaukee raised the mark to an even dozen.

Mowry hit safely in his first two times at bat at Columbus Monday, and on Tuesday got on six straight times. Yesterday he got five hits, a home run, two doubles and a pair of triples, in five official times at bat, and walked on another occasion.

His hitting helped the Millers open their home season yesterday with an 11 to 8 victory over Columbus before about 10,000 fans.

Jack Knott, Milwaukee's up and coming righthander, held Indianapolis to three hits, and the Brewers opened before a home crowd of more than 8,000 with a 4 to 0 triumph. The defeat left the Indians in a tie for first place with Kansas City, the Blues winning over Louisville 4 to 2.

St. Paul also inaugurated its home season with a victory, defeating Toledo 5 to 2.

SMITH TEAM WINS PISTOL CLUB SHOOT

Captain Harry Smith's No. 1 pistol team scored a victory last night on the police station range over the No. 2 squadron captained by N. M. Landis. Smith's marksmen shot a total of 1678 to 1607 for the losers.

Individual scores of the shoot follow: No. 1 team: Smith 403; McCollum 295; Kester 303; McFee 338; and Norton, 260. No. 2 team: Landis 386; DeWees 333; Nickols 233; Lusk 260 and Williams 362.

Boske of Indianapolis to view Max Catey's Broadbill baseball club makes a sell-out, almost certain at the opening game.

Generally picked at the start of the campaign to finish somewhere near the bottom of the heap, the St. Paul Lutheran softball team last season handily the doope buck a succession of wallops and came through the season with flying colors to finish in third place, eighth in the out-of-second. The club competes in the No. 2 church circuit. Fully aware of the fact last season's record will not help the Millard girls of the 1921 season the Vindictive street church club is out the season to prove the success of 1920 was no fluke. YESTERDAY'S STARS

Johnny Frederick, Dodgers—Collected home run, double and two singles against Phil's pitching.

George Watkins, Cardinals—Found Cub hurling easy and collected double and four singles.

George Blacholder, Browns—Pitched effectively in pinches and beat Tigers, 5-4.

Earl Averill, Indians—Clouded fourth home of season to aid in defeat of White Sox.

Rainy weather was in prospect as the two-day program opened.

HEAVYWEIGHTS WILL FEATURE MAT CARD AT SHOVEL MONDAY

Karl Davis To Meet Montgomery in Main Go of Program.

Heavyweight will return to the night at the Shovel Gym and Monday night when the ever popular Karl Davis, fast moving Columbus grappler, clashes with Bob Montgomery, the blond thunder bolt from Houston, Tex. They will meet in a two-hour time limit match with two falls to win.

The battle will be a return meeting between these two mat giants, they having met hers in a red hot round-trip 30-minute melee about a month ago. Neither was able to gain a decision in the previous bout, but the match they put on will be the show from the advertised feature. The flood of requests for their return following that performance resulted in their being signed for the Monday night clash.

Davis, rated the greatest prospect for heavyweight honors produced in Columbus since the days of Cliff Blackwell, will likely be the favorite of local fans Monday when he goes against the southerner but judged strictly on the form displayed in the previous meeting, the Capital city grappler will go to the post no better than an even money bet to win.

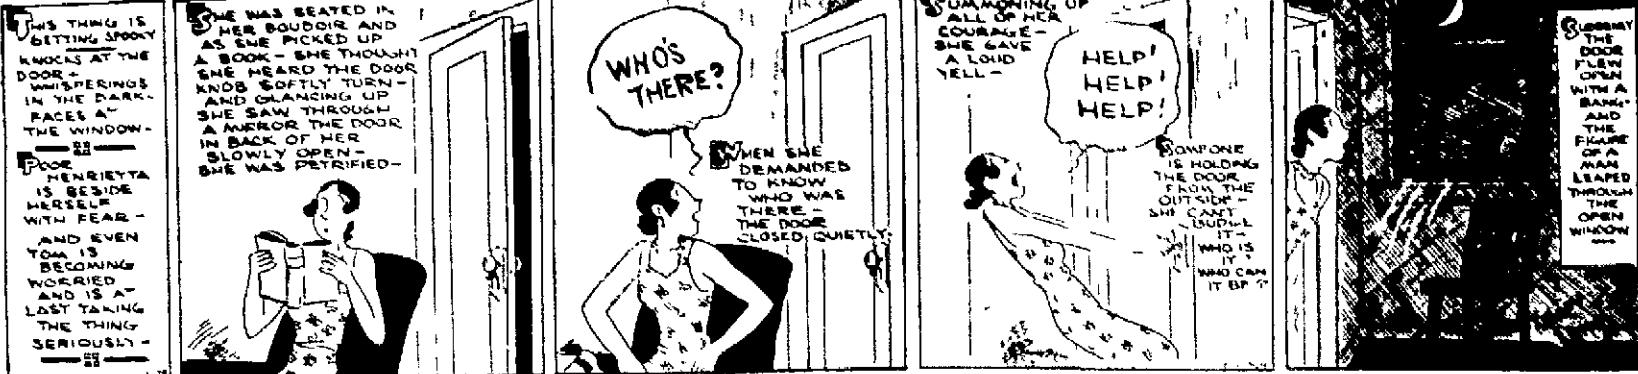

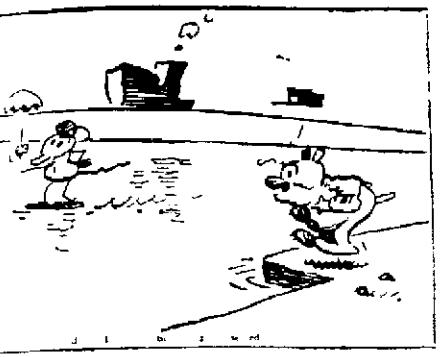

The semi-final of Monday's card will pit the sensational Indiana welterweight, Harold Simms of Indianapolis, against Claude Swindell of Columbus. Simms will be making his debut here against Swindell. Swindell will be remembered for his good showing against the clever Sammy Vaughan a few weeks ago.

Simms is reputed to be faster on his feet than Robin Reed and the Redsport, Ore. flash is just about the fastest thing that has ever hit the mat of the West side arena. He has been cutting a wide swath among the welterweights recently with his brilliant speed and bewildering assortment of holds. Swindell, despite his good showings here in the past, will need every bit of skill he possesses to turn back the bad from the Hoosier commonwealth. The card promises to be easily up to the high standard of those presented in the past by the local promoters.

SATURDAY LAST DAY FOR PERSONAL TAX

Fifty Per Cent Penalty Will
Be Added to Unpaid
Bills

Warning that Saturday is the last day for the payment of personal property tax for the first half without penalty was made today by County Treasurer P. C. Smallwood and County Auditor L. L. Thomas.

Both officials received instructions this morning from the tax commission to add 50 per cent tax on penalty on unpaid personal property tax after Saturday.

This penalty, effective now, we have made history in this country and will have not paid their first half personal taxes. Those who have not paid half of their tax and personal property can not expect any penalty now.

In a comment today, Smallwood said, "Personal property tax will remain open until 4 p.m. Saturday. The penalty will be added to late payment taken in or after the 50 per cent."

CHAIRMAN NAMED BY SALEM LEAGUE

Plans for Meeting Adopted, Constitution Approved

Mrs. Evelyn Hart was chosen social service chairman and Mrs. Grace Koenig was named entertainment chairman of the Young People's League of the Salem United Methodist church at a meeting last night in the church basement. Mrs. Evelyn Albrecht and Mrs. Constance Reinhold were named assistant to Mrs. Hart.

The constitution was approved. The members decided to have devotional meetings on the first three Thursday nights of each month and to devote the fourth Thursday to a business and social meeting. The meetings will be at 7:30 p.m.

Mrs. Reinhold and Stewart Field directed a social period of contests and games. Refreshments were served by a committee. William Lloyd will be in charge of a devotional meeting Thursday May 24 at 7:30 p.m.

Thousands Line Streets To See Grotto Parade

Masonic Lodges Come Here from Many Sections of State
for Ceremonies in The Star Auditorium. Plans for
Convention in October Planned

See the card I sent to you
yesterday for the Masonic corps
marching in the visiting 30th
anniversary of the Grotto. The pa-
rade through the business center
of Marion will be a great
spectacle indeed. It will walk a
distance of about 1.5 miles. It will
begin in front of the Star Auditorium
and center on State Street
between Main and High Streets. The
Masons have the Warren
County Band and all the
other Masonic lodges in the
area will be in the parade.

The girls are the largest
part of the Grotto, some 600
girls in the grotto, 1000
men. A class of 82 delegations
was initiated during the elaborate
ceremony and an entertainment
will be held in the church work
committee room.

The ultimate interest is the
two conventions to be held next
Oct. 6, 7, and 8, the convention
committee in conference with a
visiting committee of the
Masonic Association of the
area. The first day after
the parade will be the 13th anniversary
of the Grotto. It will be held in
the church work committee room.

All priests will be on duty at
the grotto. There will be a
drill first and second for band
first and second for drum corps
first and second for drill team
first and second for chorus first
for test drummer first and sec-
ond for marchers for fancy drilling
first for the biggest delegation in
the parade, first for the delegation
from the farthest distance first
for test delegation of bands.

End RHEUMATISM

—Remove the Cause—

To really relieve Rheumatism we must attack the cause which is said to be the action of toxic agents and is due to faulty process of METABOLISM. It is better to apply external applications to affected parts for real relief as long as the system is full of toxemia is the source of the infection.

It gives exactly the assistance that Nature needs to remove these poisons and to reestablish normal function. Thousands have secured amazing results after treatments had failed. Don't suffer. Get a bottle of Zor-ol.

Hobbies and Handicraft.

Awards are being made today in the annual Y. M. C. A. hobby and handicraft show, an exhibit made up almost entirely of interesting articles made or collected by boys and girls of the community.

Residents of the city who have not made a practice of attending this show each year have been missing something of unusual interest. They have also been missing an opportunity to get first hand evidence of the fact that most young people of today have busy and active minds capable of accomplishment and intent upon improvement.

Talent and skill are apparent in many of the exhibits and proof of character and ambition is found in all. Those boys and girls who lack the actual gift of artistry do not need to be discouraged. Determination to achieve and willingness to put untiring and unceasing effort behind that determination will be sufficient to carry them to places of eminence in life.

The gospel of industry, character and ambition is old and the history of human achievement is filled with accounts of honest, persistent plodders who have outstripped their more brilliant competitors. It's not just fairy tale or Horatio Alger stuff, but something that is real and attainable.

Most of the material on display at the Y. M. C. A. show represents hobbies that provide the young people with wholesome and useful recreation. Doubtless the majority of these boys and girls will take up lifetime occupations that will have no direct relation to those youthful pastimes. But these activities, with the mental and moral development they provide, will be of practical value in the future.

It may be too, that the hobby habit will be permanent throughout life. That too, will be a real benefit. There is a prevalent belief that everybody, no matter how busy he may be now, how important his place in life, should have a hobby, some favorite pastime or avocation that will tend to offset the strain of the daily grind.

Dean Willard C. Rappleye, of Columbian University, reports that conditions of modern living are leading to an appreciable increase in nervous and mental disorders. Aren't there educators the clever ones? Now who but one of them ever would have figured out a startling thing like that?

Rosy Paths to Popularity.

It may be assumed that the President of the United States in giving a message to the assembled governors of the states would choose for a subject their most important common problem. President Hoover, addressing the governors' conference at Richmond, Va., Wednesday talked about heavy taxation and governmental expenditures.

What he had to say gained importance from the fact that it was an official despatch of policy. The nation has been waiting to hear from a responsible source that "we are clearly absorbing too great a portion of the national income for the conduct of our various branches of government." It has been waiting for a high official to recognize the unfairness of duplication in taxation. Discouraged by promises of higher federal taxes to balance the budget, it has been wondering whether or not Washington realized that "decreasing prices and decreasing income result in an increasing burden upon property owners both in rural and urban communities, which is now becoming unbearable."

President Hoover, in reminding the governors of these things, spoke for the whole people as their Chief Executive. He made their opinions, their remonstrance of exorbitant taxation articulate. He pointed out the need for ultimate reduction in the tax burden; the evil of duplication in federal, state and local taxation; the necessity for reorganizing the tax basis to secure a more equitable distribution, and the need in the existing emergency for new forms of taxation. All these things have been uppermost in the popular mind these many months. Politicians can avoid speaking of them, no longer. How long can action be postponed?

The President, viewing the governors' problems, warned them that leading the way out of the depression offered "no rosy path to popularity." Is there such a thing? Or did he mean, perhaps, a straight road to respect? If it be the latter that governors are seeking how could they guide their course more surely than to heed the universal conviction that government in the United States must heed the popular demand for more reasonableness in taxation if it is to survive?

Le Baron Cooke remarks that "it would seem that practically everybody has the morbid desire to break bad news." As a matter of fact, we have heard of addicts to this habit who will call one up at night and get a lot of enjoyment out of it.

A Call to Duty.

Citizens of Marion soon will receive another call for the performance of duty in behalf of public welfare. The five-day period from May 12 to 27 has been set for the spring Community fund campaign.

The purpose and merit of this enterprise are so well known that any detailed explanation would seem to be superfluous. Certainly there should be no necessity of arguments to convince any citizen that he should contribute his full share toward maintenance of the fund on an adequate basis.

The Community fund has been of tremendous value to the city of Marion since it began functioning several years ago. This is true, despite unforeseen handicaps and difficulties that have developed in the last two years.

Those in charge of the management of the fund have encountered a two-fold problem with the adverse turn taken by economic conditions. Community welfare and charity needs have greatly increased and at the same time the fund's supply of money for meeting these needs has decreased.

The campaign set for May 23 to 27 is intended to restore the fund to the place where it will be adequate for all requirements. This can be accomplished only through whole-hearted support from all citizens who feel it is their duty to contribute to the general welfare of their community and share what they have with their less fortunate brethren.

The Community fund was inaugurated here to place welfare and relief service and expenditures on a systematic basis that would eliminate duplications, waste and overlapping of activities and get a maximum of results from the money available. This has been accomplished to the fullest extent, thanks to the capable management and supervision of those citizens who have given generously of their time and effort in addition to contributing liberally from their own funds.

Beyond question, the relief problem in Marion since the beginning of the period of unemployment and economic decline would have been much more serious had it not been for existence of the Community fund. Even with an insufficient amount of money available, those directing the fund and its component agencies performed remarkably effective service and made possible a distribution of aid for the unfortunate that would not have been accomplished so well had there been no centralization of relief activities.

It would be a most deplorable mistake for Marion ever to drift back to the old plan of loose and disconnected conduct of its community welfare work, with the consequent numerous "drives" for one cause or another extending throughout the entire year.

Smith's Strength.

Last Tuesday's primary balloting in Massachusetts and Pennsylvania showed Roosevelt back in one thing clearly. Alfred E. Smith hasn't been painted out of the picture yet. He made a clean sweep of Massachusetts, as predicted. He made a strong challenge in Pennsylvania, which was not predicted, even by Smith's prophets.

Perhaps the most important phase of the popular reaction to this significant news from the political front is the added strength it gives the persistent rumor that the Democratic presidential candidate may be Owen D. Young, who is regarded with high favor in the East and whose name bears no stigma in other sections more damaging than its owner's connection with big business. One thing is certain; Smith and Roosevelt both can not be nominated. At this juncture, Young appears in a favorable light as a compromise candidate who would possess unusual strength. Pennsylvania's decision, though nearly it committee delegates to no definite campaign, has given cigar store politicians an excellent talking point on the relative strength of the two outstanding Democrats thus far in the race.

Anti-prohibitionists, likewise, will not be slow to turn the defeat of Major General Sheddell D. Butler to account. General Butler, running as a dry, lost heavily to Senator James J. Davis, lately turned wet. The general possessed all kinds of color and a name familiar to all voters—but the senator possessed the support of the Republican machine and the wet. Line by line and shade by shade the political picture that will be unveiled next November is taking form. And Al Smith's determined face hasn't been dulled yet.

Hard Times Hit Hollywood.

Name movie pictures, but producers make names, so when the final accounting is made it's the commercial gentlemen behind the scenes who have a right to pull the strings that keep the puppets jumping. And some of those commercial gentlemen in the region of Hollywood must be getting their chains out. Events came fast this week.

At another studio James Cagney was seen cutting his possessions away because he had decided to hold out for \$10,000 a week, instead of the \$1,600 he has been receiving under a long term contract. It is reported that he wants to study medicine, that unless his employer meets him at his own terms he will give up the acting business.

The moving picture colony doesn't seek advice, but if there be any one interested enough to take a turn around through the crowd under the marques he might find a general sentiment abroad that pictures could struggle on with pretty good success minus Josef von Sternberg, Marlene Dietrich and James Cagney. One has plenty of money, one has too much temperament and the other wants to be a doctor. To times like these every person should fit into his place perfectly, movie fans prefer to think that their favorites are happy, if not always satisfactory.

"AFTER YOU, MY DEAR GASTON!"

Editorial Opinion.

BUT WE ARE INTERESTED IN HER.

Edouard Herriot, French Radical Socialist and leader of the "Left," who hopes that the coming national election in his country will place him in line for the premiership, remarks that France should say to the United States: "If our affairs do not interest you, then leave us alone."

Unfortunately there are several reasons why French affairs do interest us. At a time when France was in desperate straits we opened our purse strings to her. In consequence, she owes us a debt, running up into the billions. And at a time when we particularly need money she is showing a distinct disposition to default and permanently repudiate. So we have the interest in France that a creditor always takes in a doubtful debtor.

Besides that, France by her selfish, self-centered attitude, and by her insistence that the whole international scene must revolve around her, is seriously jeopardizing efforts to bring about the adoption of an orderly program of disarmament, and a condition of world amity.

A recent report of the United States public health service states that though pellagra has been known for almost 200 years, it is only recently that the cause of this disease has been made clear.

Contrary to common belief it is not an infectious disease, nor is it contagious. Pellagra, which affects the skin, stomach, intestines and nervous system, is believed to be caused by a diet lacking in certain foods.

Pellagra was a rare disease in this country until 1907. Since then repeated outbreaks have caused great anxiety throughout the country. I am glad to say that, due to diligent research work, pellagra no longer confuses public health authorities.

It is now established that pellagra is a "vitamin-deficiency disease." Where there is a lack of certain vitamins in the diet, "vitamin-deficiency diseases" may occur. A diet constantly lacking in those fresh fruits and vegetables which supply Vitamin C causes a "vitamin-deficiency" disease called scurvy. When children are continuously fed on a diet deficient in Vitamin D, rickets results. In a similar way pellagra results from a diet which does not contain a sufficient amount of Vitamin G, the "anti-pellagra" vitamin.

Many believed that pellagra was due to lack of money with which to purchase the proper food, and so it was known as a poor man's disease.

This is not always true. Often it is because the wrong kind of food is eaten. Severe diarrhea is an effort to reduce may cause this condition. In digestive disorders that interfere with proper nutrition pellagra may occur.

Fortunately the vitamin necessary to prevent pellagra is found in a variety of foods, some richer in Vitamin G content than others. Fresh lean meats, liver, milk, canned salmon and commercial wheat germ contain an abundant supply of this important vitamin, while eggs, dried peas, soy beans, dried milk and tomatoes contain the vitamin in smaller amounts. These must be eaten in larger quantities if they are to give the necessary protection. Vitamin G is found also in corn products, wheat and rye flour, oatmeal, salt pork, lard, butter, eggs, rice and rice, but in so small amount that these foods can not be depended upon, regardless of the quantity consumed.

Often it is impossible to obtain fresh vegetables all year round, but recent studies show that canned vegetables, such as spinach and turnips, are of value in the prevention of pellagra.

The importance of fresh fruits, meat, vegetables and milk in the daily diet can not be overemphasized. It has been proved that pellagra may be produced or prevented by changing from or to the foods that contain Vitamin G, the anti-pellagra vitamin. Pellagra is not influenced by the amount of food, but by the type of food and its Vitamin G value.

Like other "vitamin-deficiency" diseases, pellagra can be prevented by supplying the necessary Vitamin G which is always found in a well-balanced and varied diet.

Rare Collection of Antiques.

INTERNATIONAL NEWS SERVICE

Mar., 29.—Romans and visitors are making the most these days of a chance to add to a rare collection of recently-round art objects gathered in the Gallery of Modern Art.

Most of the exhibits have never been shown in public before and some of the finest are from the United States, being lent by Mr. Jayne, director of the University of Pennsylvania museum, and representing America's share of the joint excavations with the British Museum at Ur of the Chaldees.

Practically all the exhibits were excavated at the Mediterranean basin. Some of them have been kept secret by that unaccountable and unlike which some of the world's biggest archaeologists feel for showing the finest treasures of the collections under their care.

Painted writers have lately made a press attack upon this "hoarding" of beautiful finds and the exhibition will owe something to them. Mussolini is one of the patrons, Prince Umberto, His Presume, the other. The organization is in the hands of the directorate general of the ministry of national education.

Many surprises are among the 200 exhibits, while the part devoted to paintings comprises pictures of the Italian artists of Italy's best period in which the Fascist government has acquired at home and abroad with its share of the profits of the Italian exhibition held a couple of years ago at Burlington House, London.

The famous Libro D'Oro di Borsa D'Este, which was brought back from America for a quarter of a million dollars and is probably the most illuminated book extant, will be shown. Not less interesting are gold and silver objects from Ur, precious stones worked into marvellous jewelry and "new" examples of pottery and silver ware.

The famous "Market" treasure, which has never been seen outside Russia and London; gold necklace of the Byzantine period from Bactria, interesting things from Lepis Magna, the once magnificent city of Septimius Severus, which became buried in sand after the fall of Roman domination in North Africa and was excavated by modern Italians about eight years ago; strange Etruscan vases from sarcophagi, are among the exhibits.

Anato, a coast resort thirty-six miles from Rome, is again yielding valuable relics of its ancient days, when Coriolanus took refuge and died there, and Nero was born.

The jobless men of the district are employed in the search. So far they have dug out part of a public bath, on the hill named after Coriolanus, a building which evidently dated from early republican times and was enlarged and decorated under the Emperors. Unfortunately there are no traces of the statues which must have adorned it. But some fine fragments of marble colonnades have been found.

A magnificent piece of statuary has come to light near the modern lighthouse on Anato Head. It shows Hercules on the ground, having been overthrown by a mounted warrior.

A woman who wears Hercules' famous lion's skin around her neck, hanging down in front like a modern sash, is beautifully modeled. She has in her hand one of those thonged leather whips used in Roman times for beating slaves. The fragment—parts are missing—is in beautiful Greek marble.

PROVES "POWER OF SUGGESTION"

proved an amazing example of
what suggestion can do.

A few days ago he and his wife
Teresa, celebrated their fortieth

wedding anniversary and during
the feast they romantically said
they had lived so happily together
that they must die together.

A day or so later Teresa fell ill
and died after telling one of the
few that Domenico would die
exactly three days after her. This
so impressed the husband that he

fell ill of a fever immediately af-
ter her death and though the doc-
tors assured him he was in the
second and could live for years he
died at 6 o'clock the third day.

He told his family a year ago he
made this pact with him and he
could not go on living.
